

# Play Safe Outside

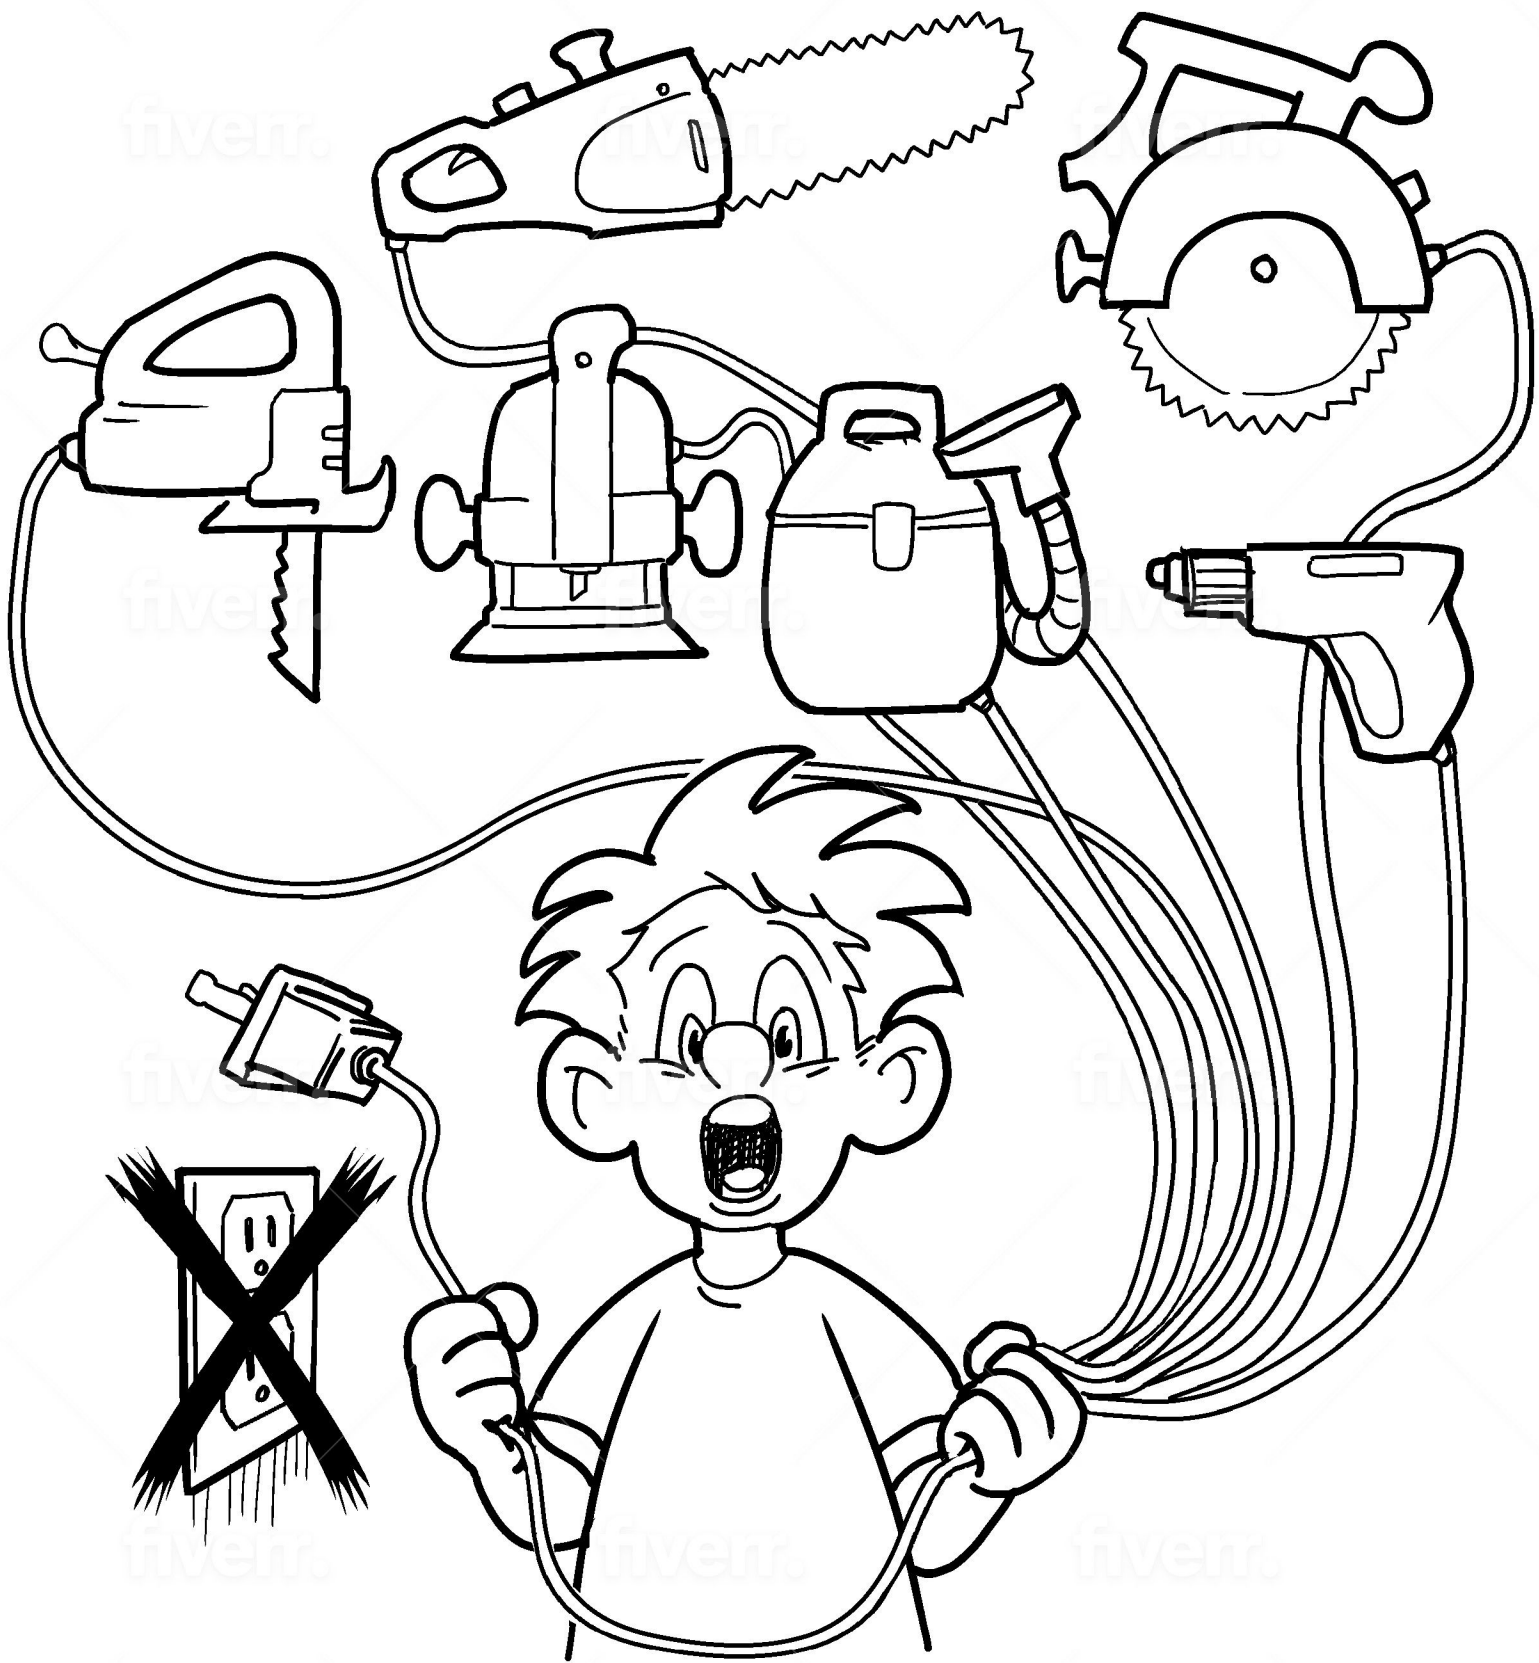

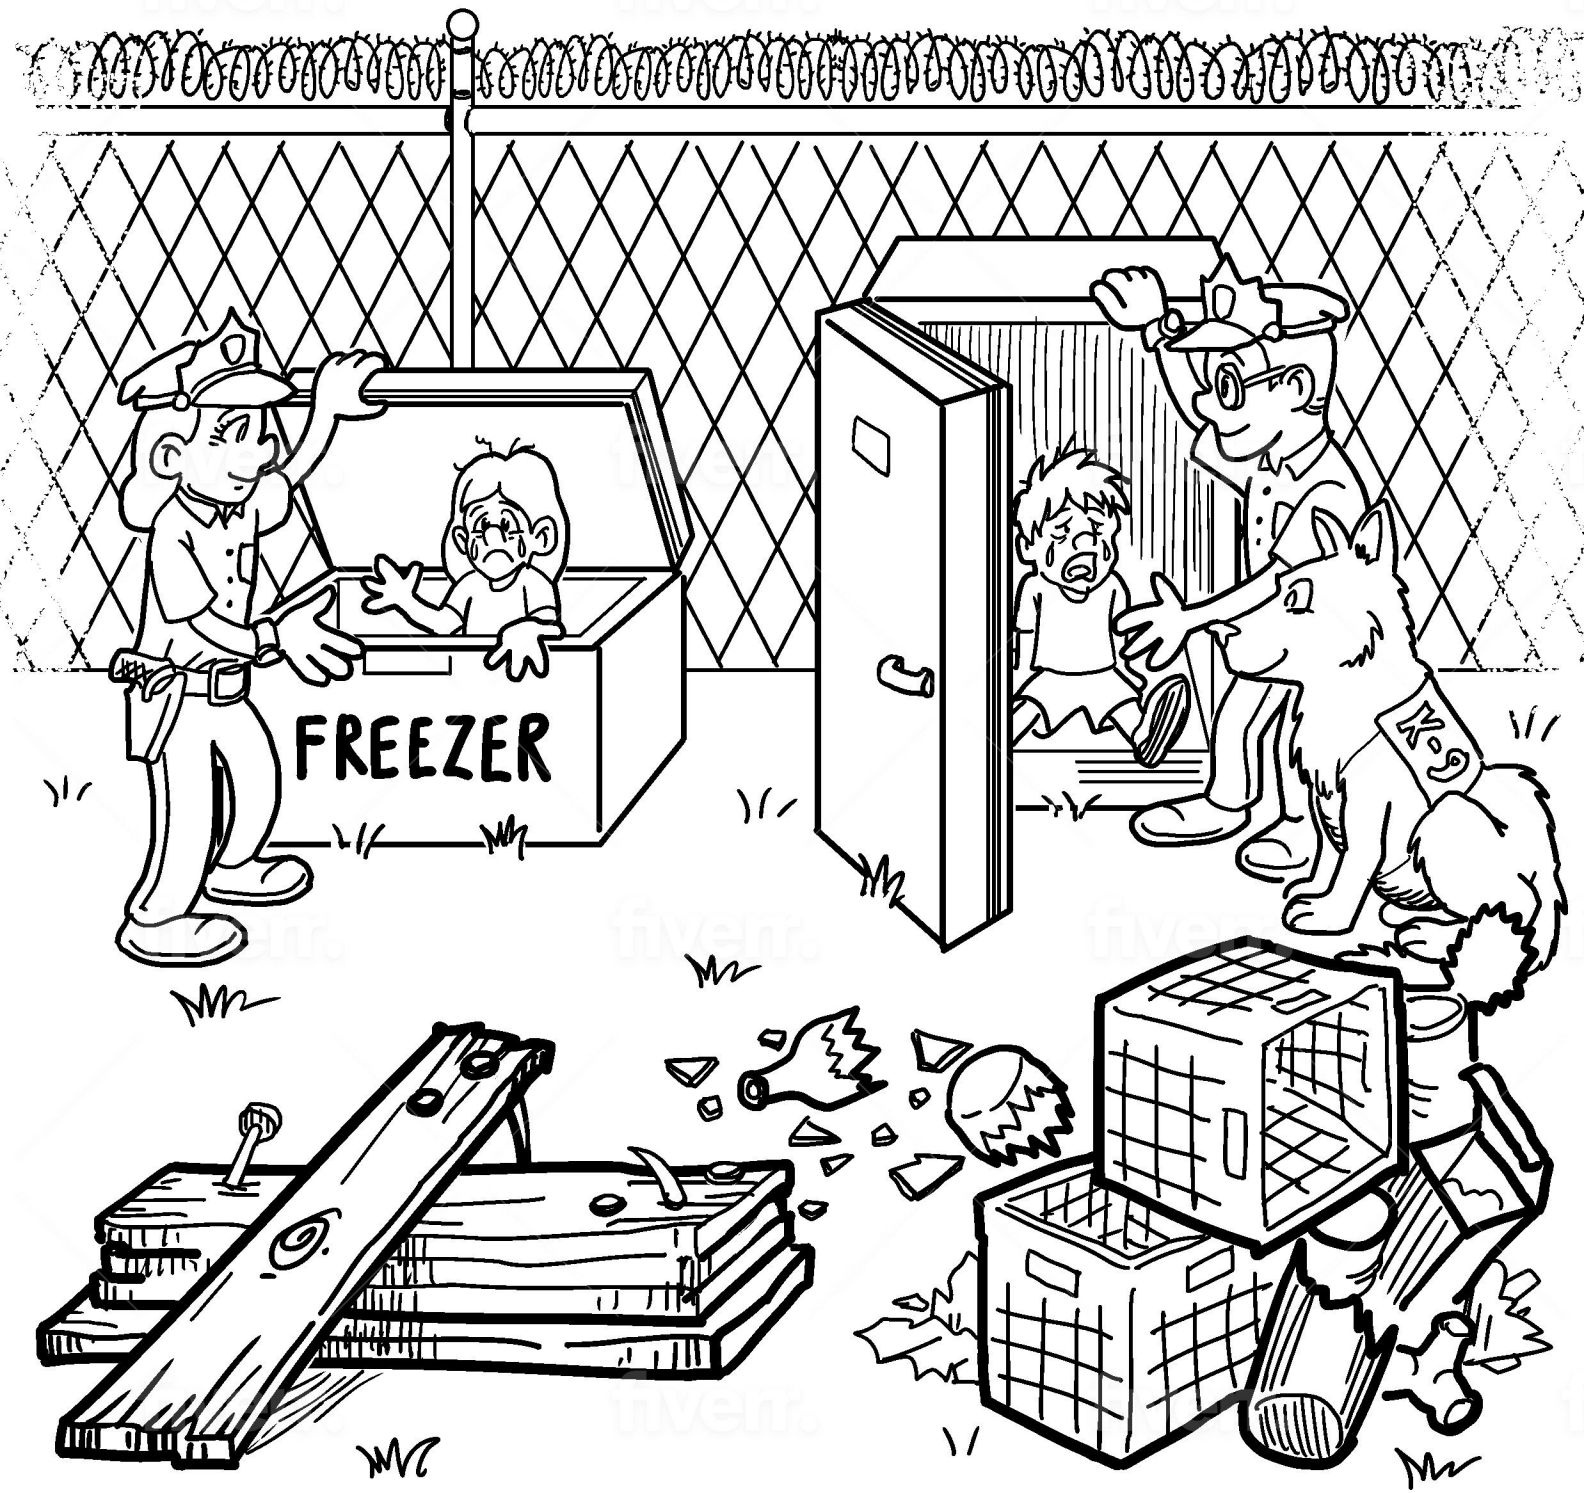

**Beckett and Charlie know how to play safely on the merry-go-round. They know if they try to show off, they may FALL off!**

**Be careful hanging from trees.  
Remember you're not an actual monkey.**

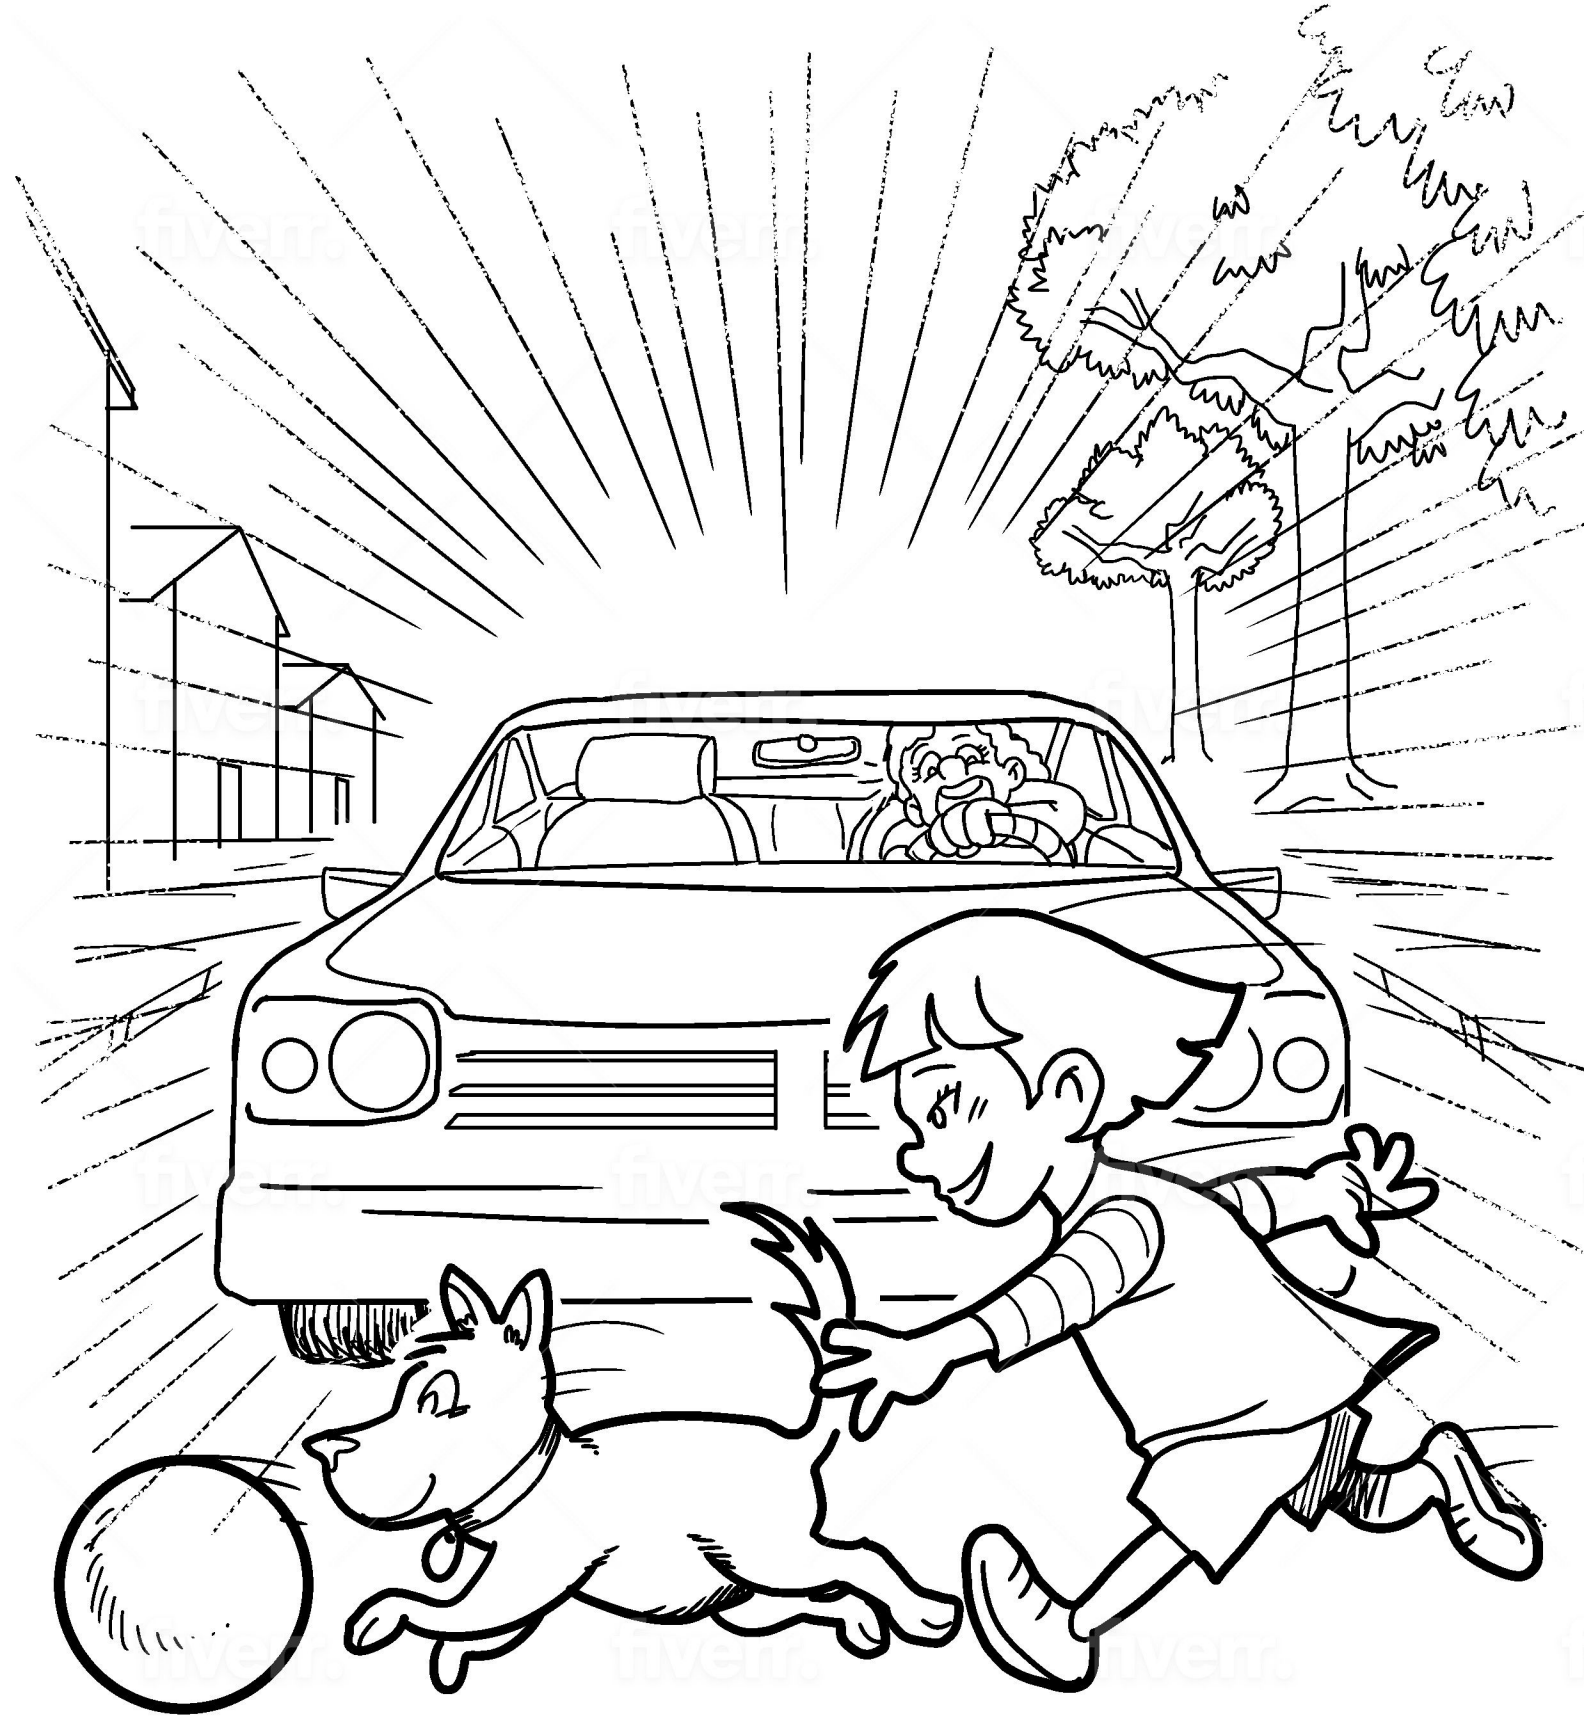

**Never play with tools that have a cord and plug. They can be dangerous.**

**Never play or hide in old refrigerators  
or freezers. You could get locked  
inside with no way out!**

**When camping, only adults should handle any fire. Never play with matches or around campfires!**

**Never chase balls or pets into the street.  
An oncoming car may be too close to stop!**

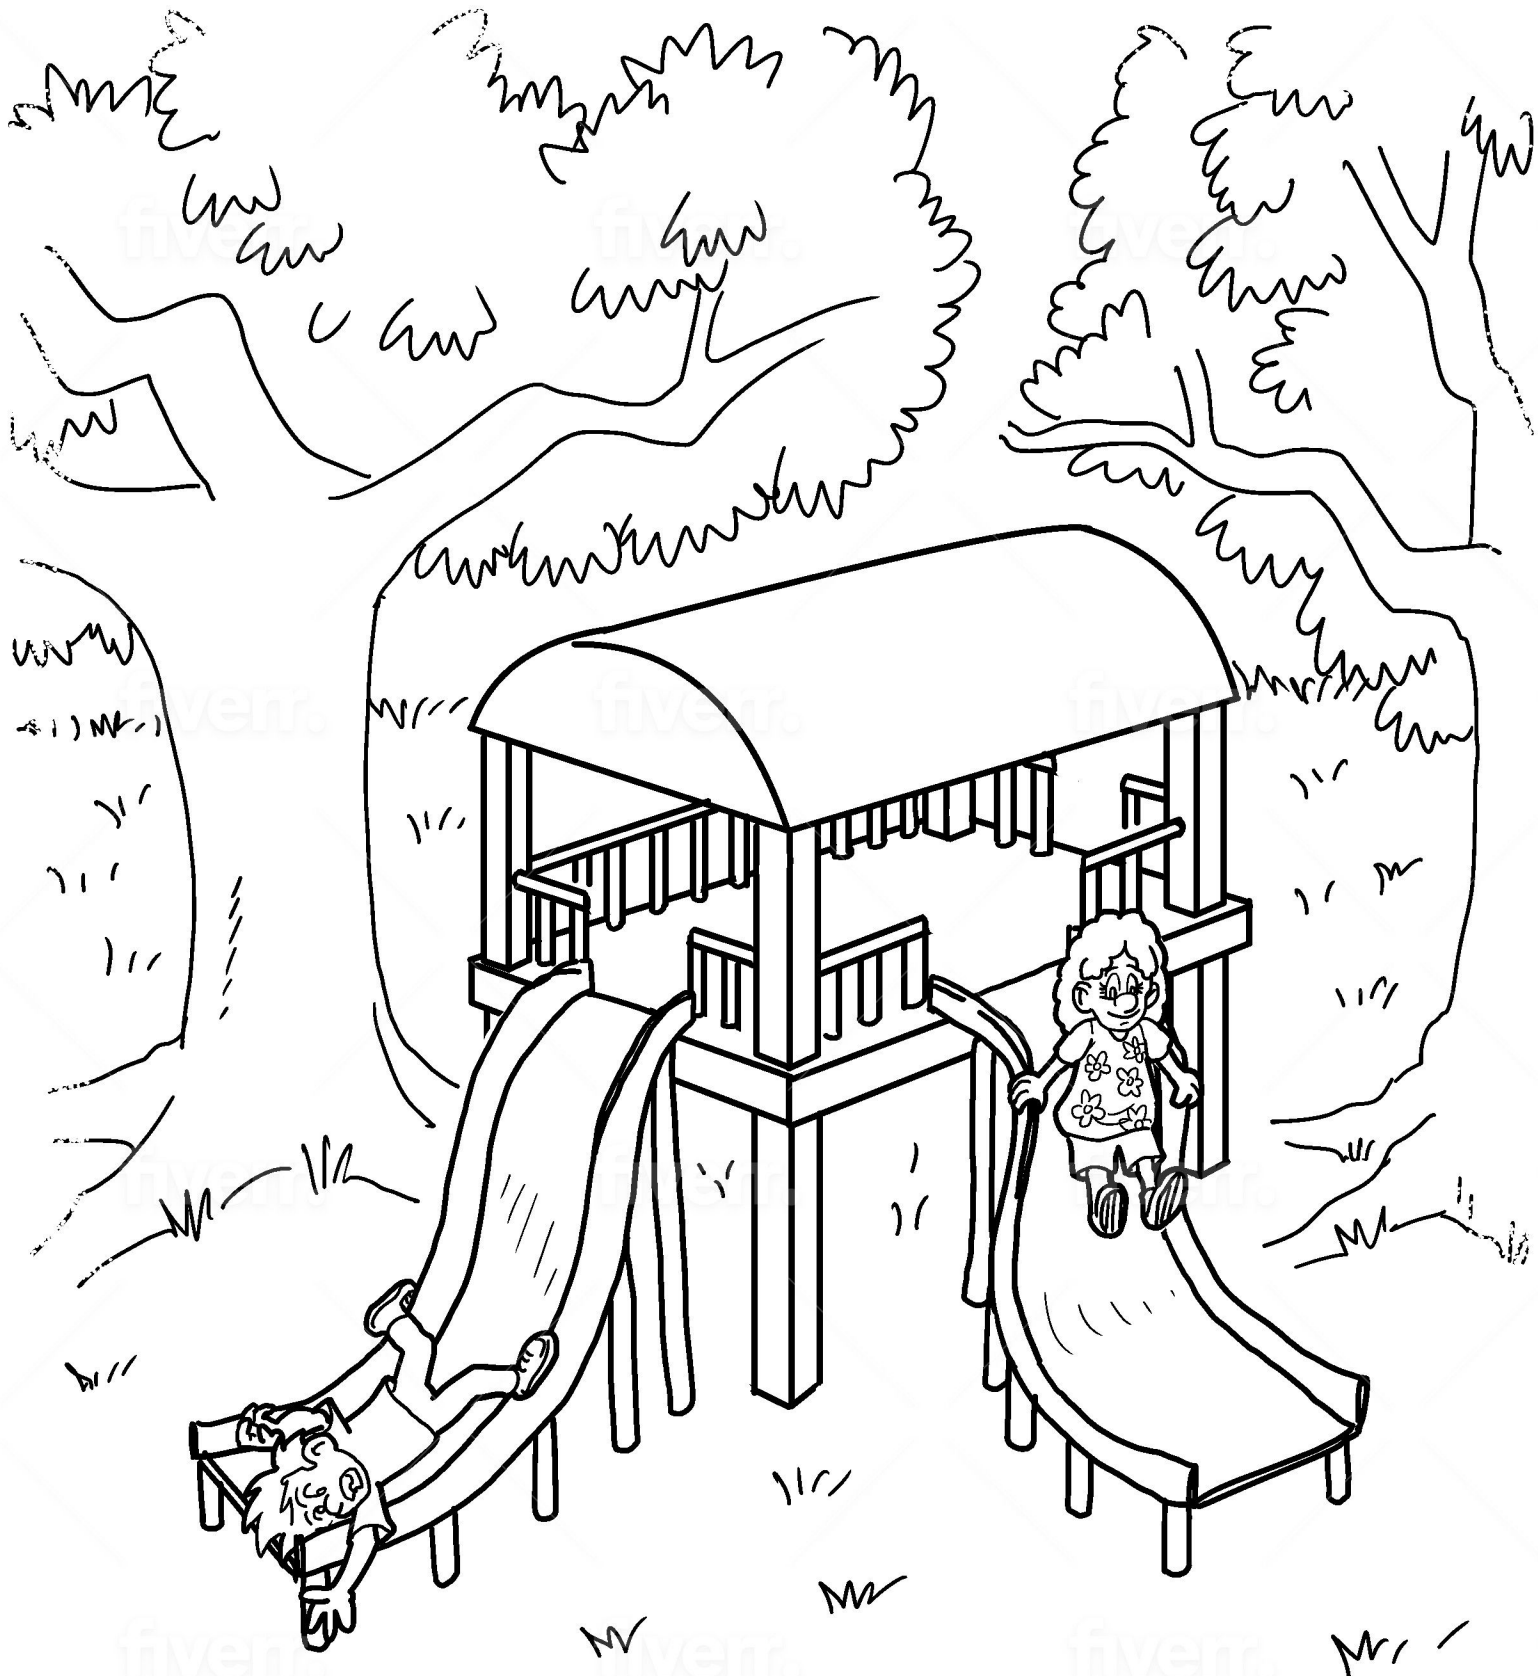

**It's fun to swing high and fast on swings,  
but remember to always hold on tight  
and stay seated!**

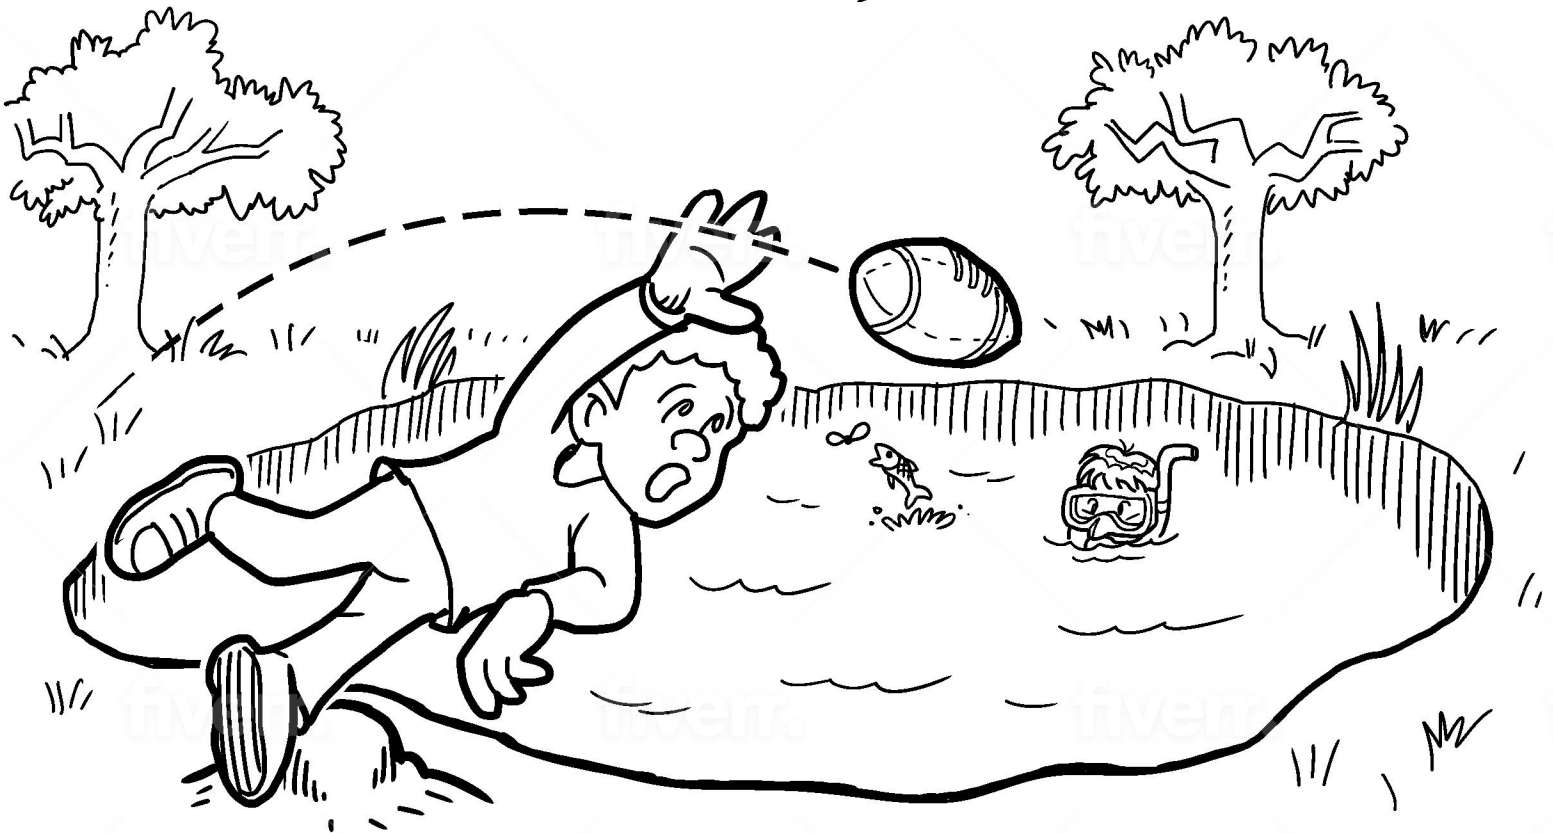

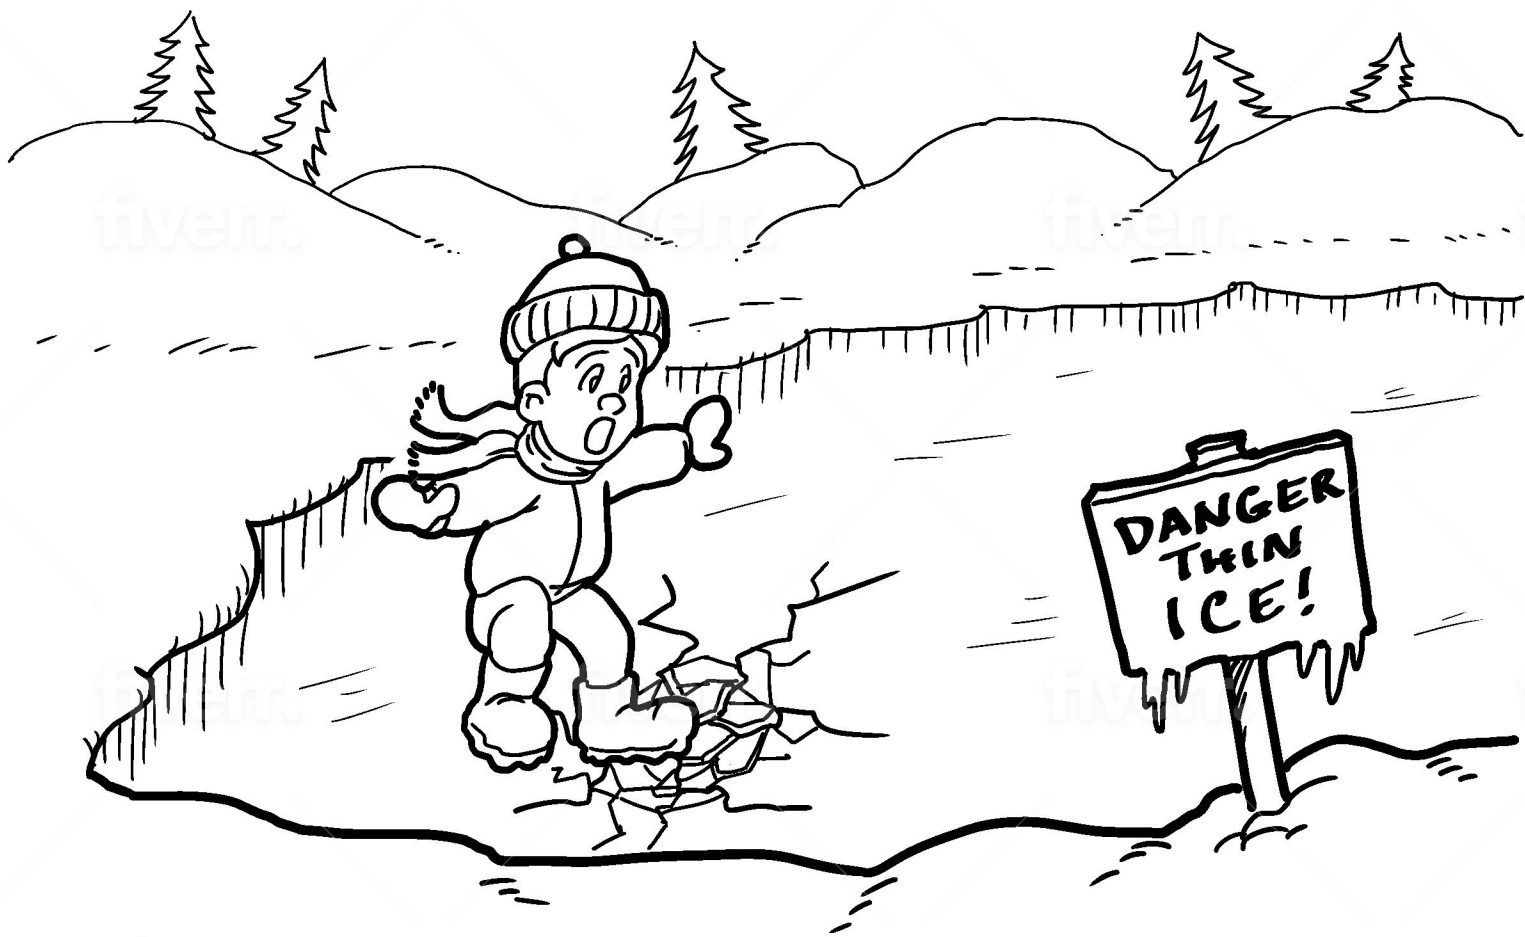

**Keep a safe distance from large equipment like tractors, trucks, ATVs, and lawnmowers. The driver may not be able to see or hear you.**

**It's great to go down slides as fast as you can,  
but always remember to stay SEATED  
with your FEET first!**

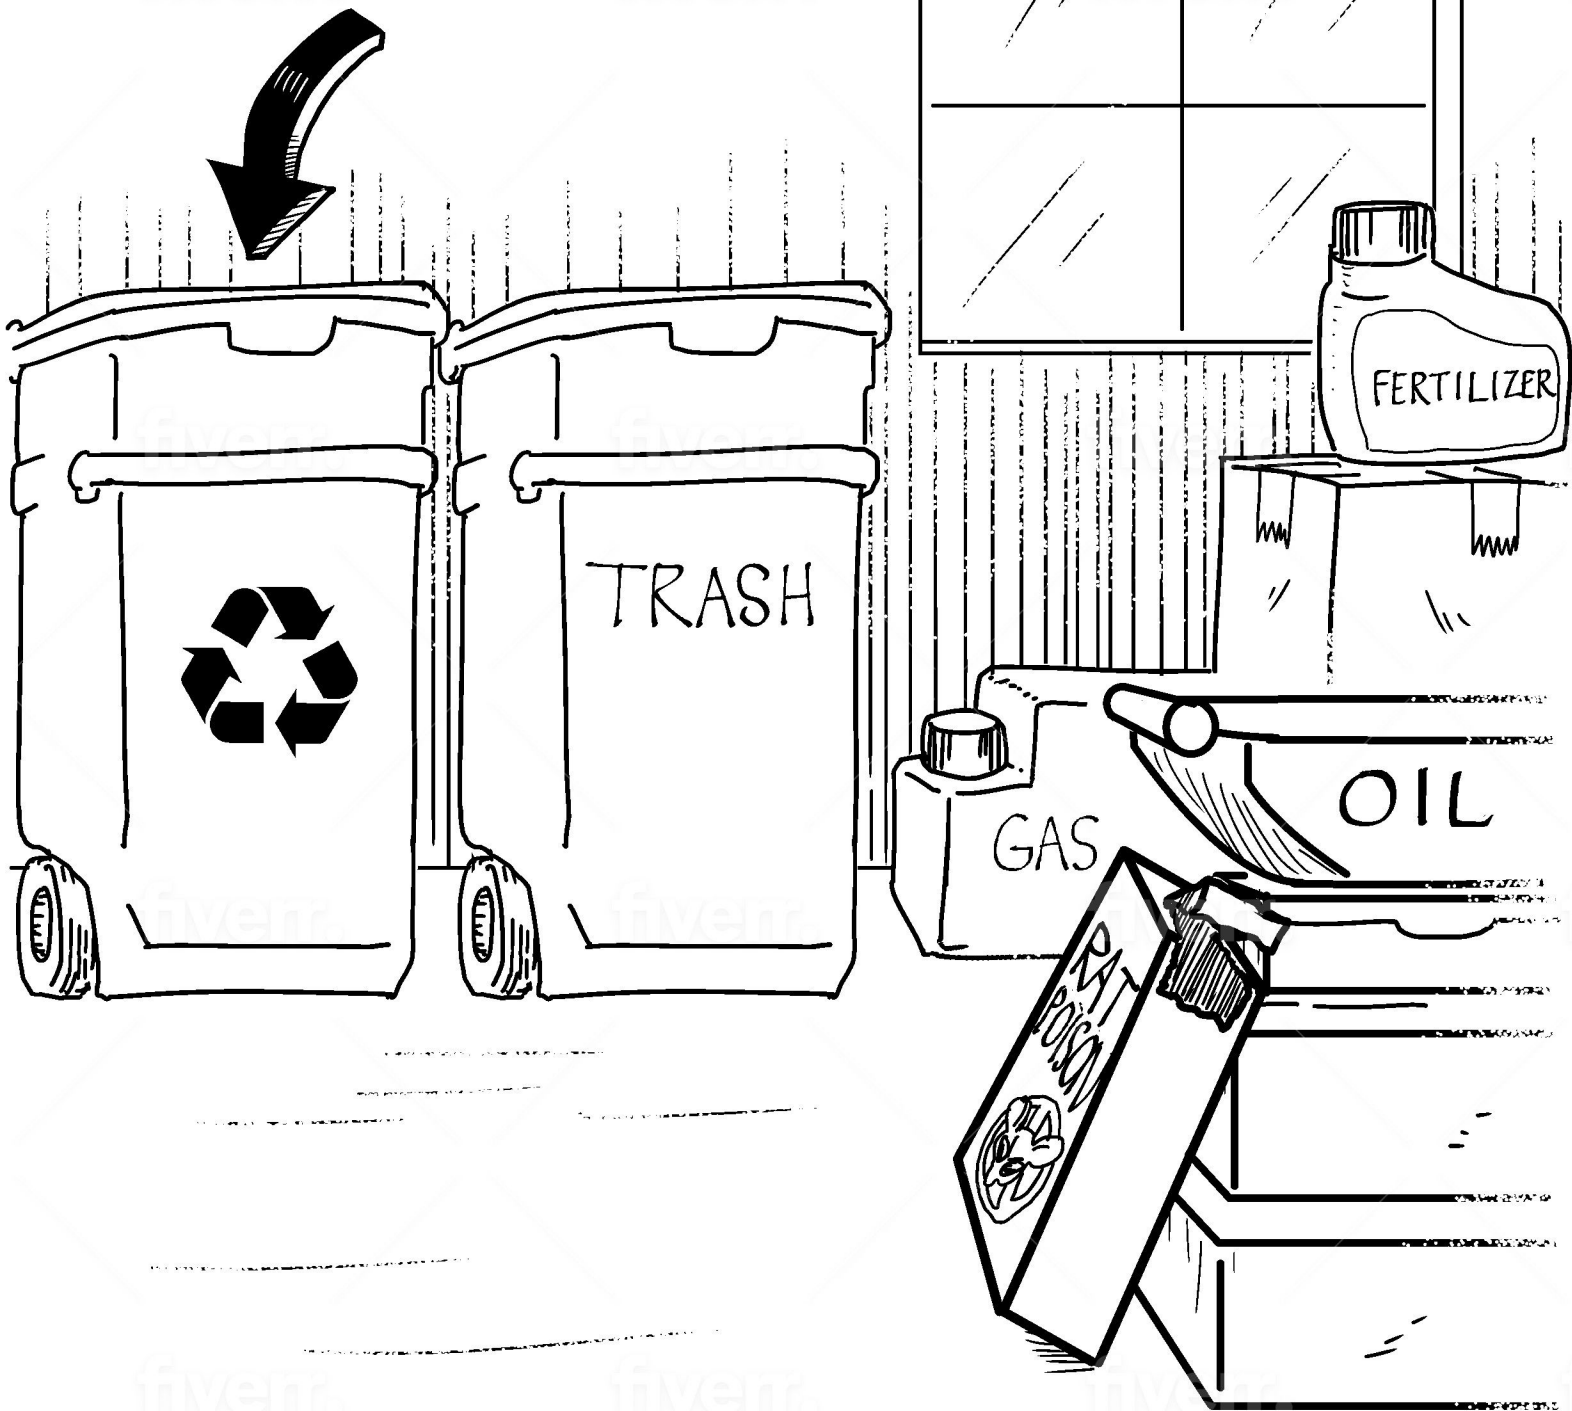

**Step ladders are for work, not play.  
Only use them with a parent's permission  
and remember to hang on tight!**

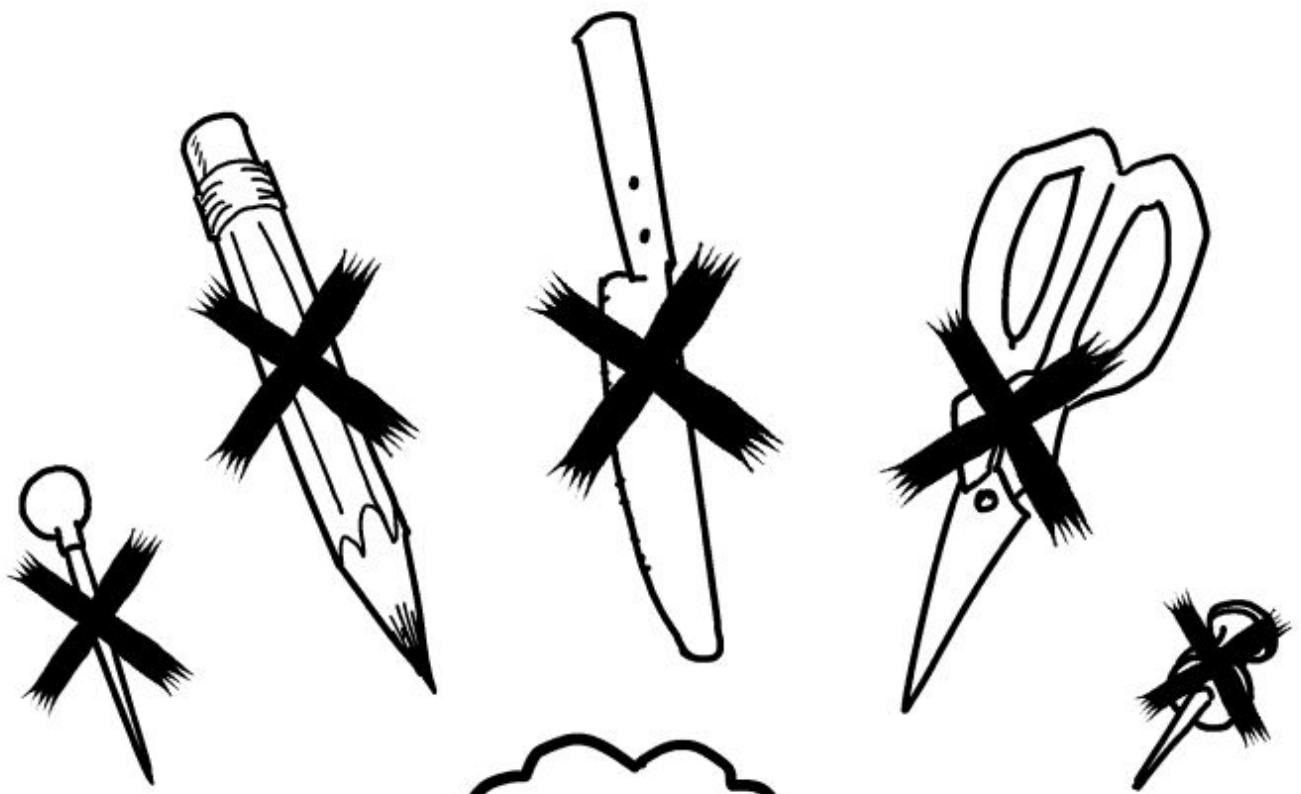

**ALWAYS** use great caution around water,  
and definitely learn to swim  
as soon as you can!

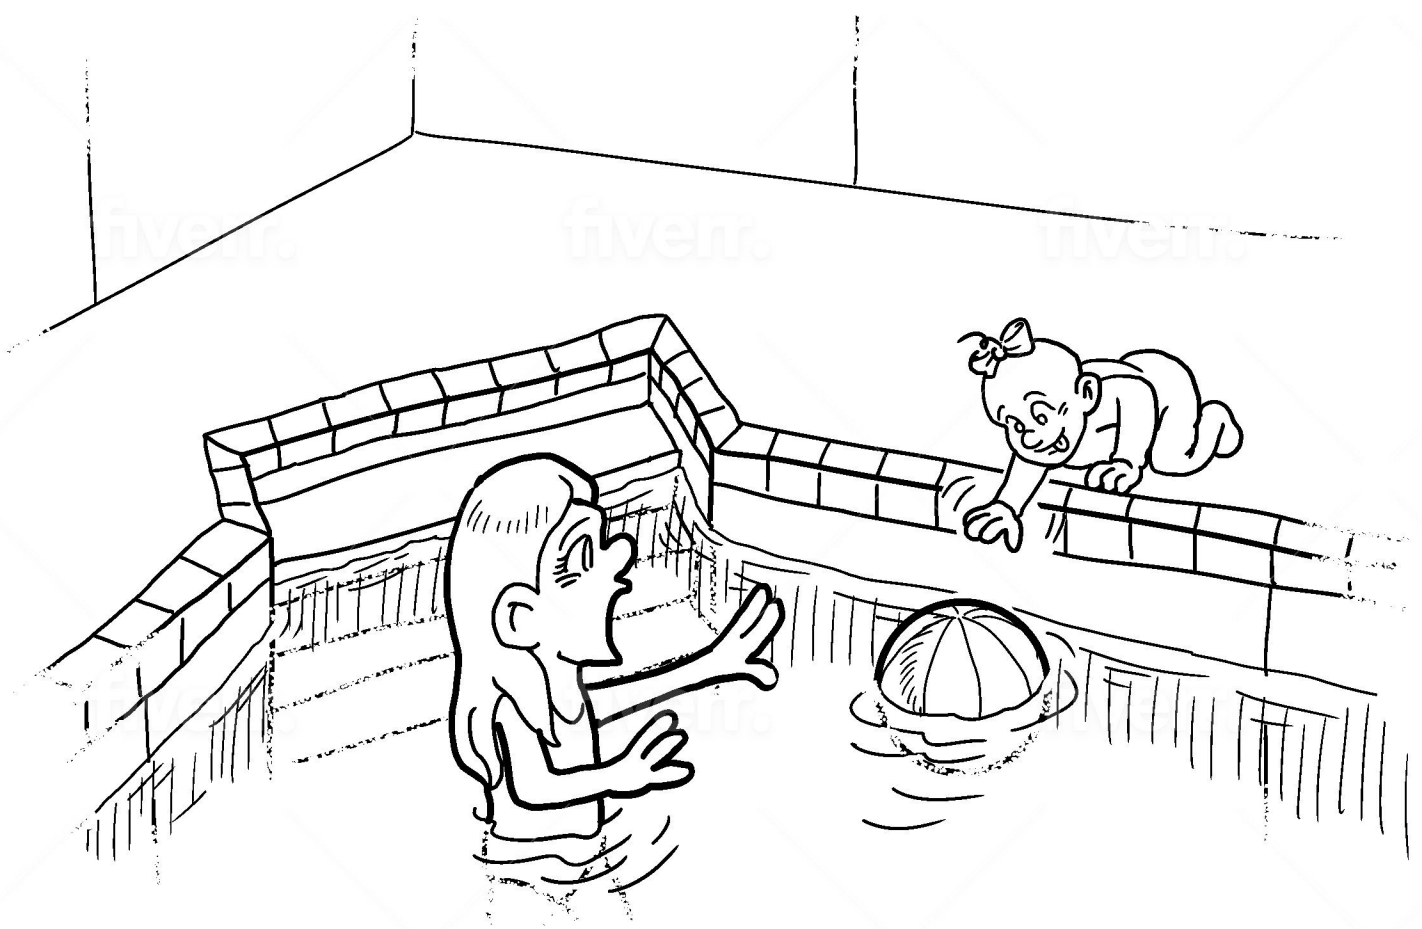

**Do you know  
what is in here?**

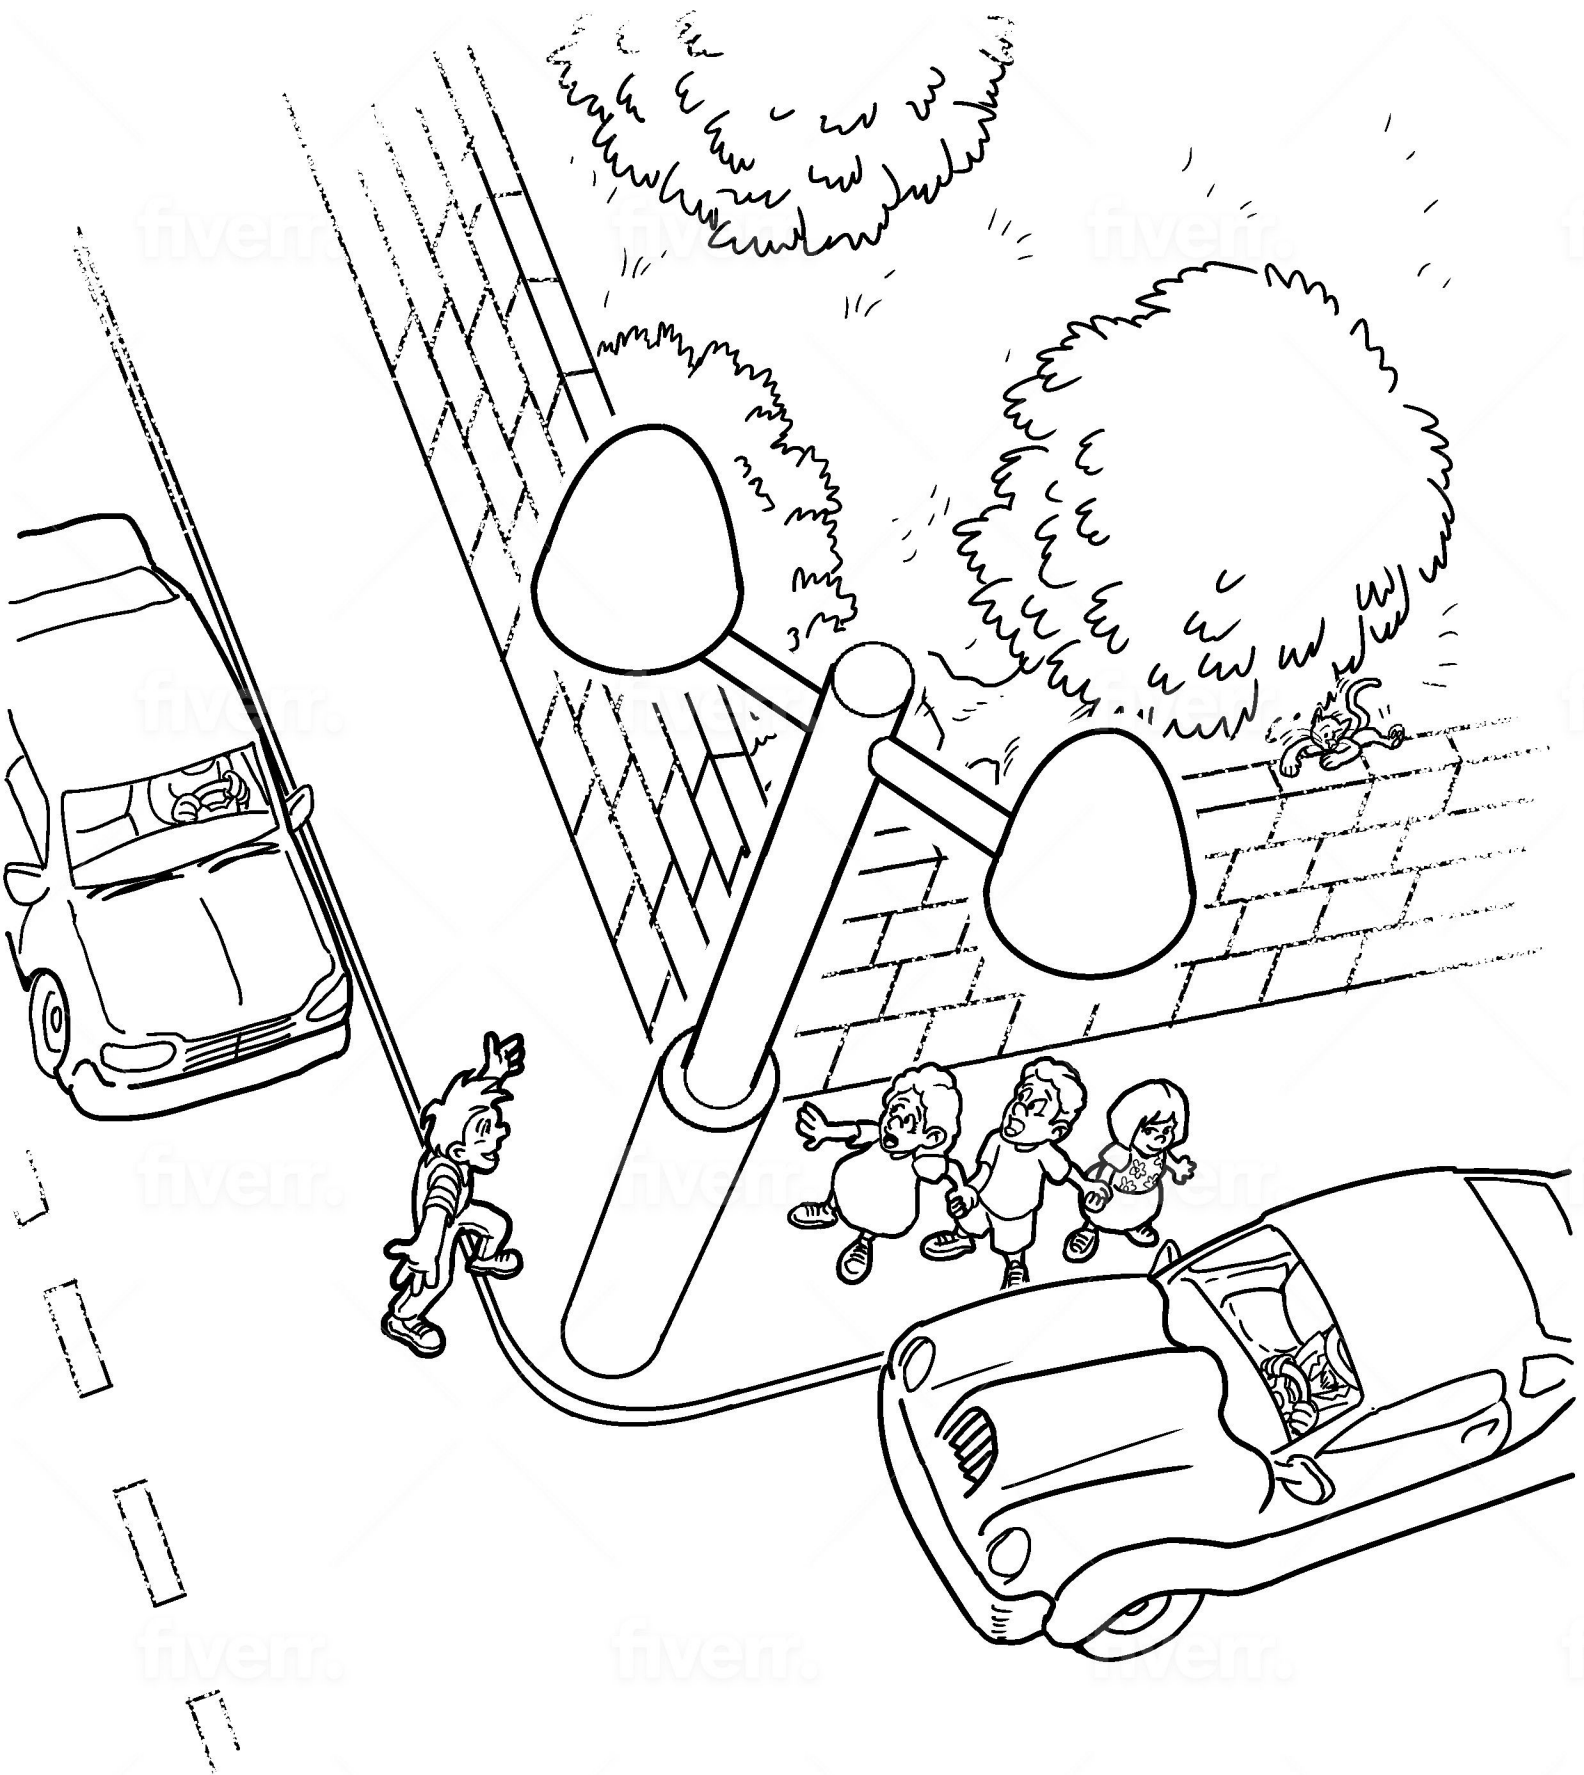

**Beware of plastic containers in the garage and storage areas. Many contain harmful and dangerous chemicals.**

**Never run with sharp objects in your hand.  
They could really hurt you.**

**Be very careful around pools and hot tubs  
because it is very easy to fall.  
Constantly watch each other for safety.**

**On sidewalks, keep a safe distance from the curb and stay alert. It's also smart to hold hands for added safety!**

**Never run with suckers in your mouth.  
If you fell, it could be extremely painful!**
